

Supplementary Information

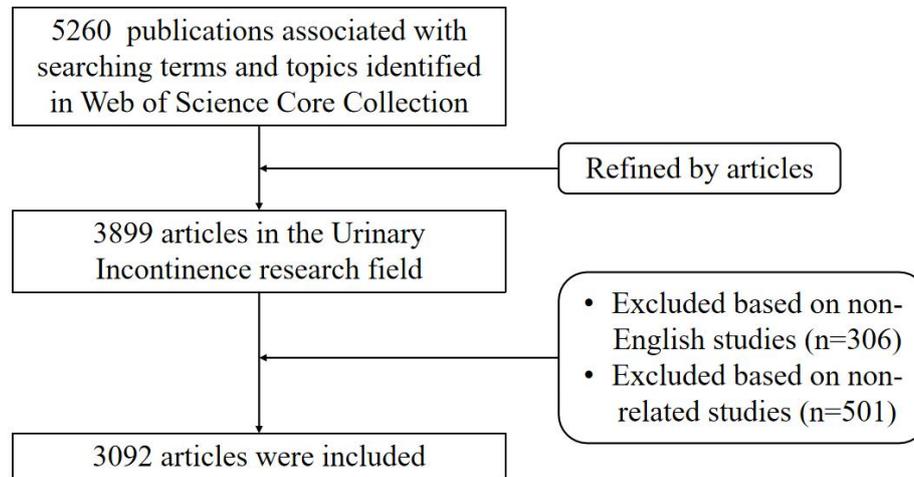

Figure S1. Flowchart of the selection of publications.

Table S1. The top 15 most published and cited active affiliations in the research direction related to urinary incontinence.

Affiliations	Publications (%)	Country/Region	Total citations	Average Citations Per Item	H-Index
Udice French Research Universities	128(4.14)	France	2246	17.55	24
University of California System	121(3.913)	USA	2307	19.07	26
University of Texas System	119(3.849)	USA	1753	14.73	21
Assistance Publique Hopitaux Paris	99(3.202)	France	1894	19.13	22
Vanderbilt University	88(2.846)	USA	1647	18.72	20
Sorbonne University	86(2.781)	France	1732	20.14	22
University of Michigan	75(2.426)	USA	1220	16.27	19
University of Toronto	70(2.264)	Canada	1991	28.44	23
N8 Research Partnership	67(2.167)	England	2911	43.45	29
Pennsylvania Commonwealth System of Higher Education	67(2.167)	USA	1240	18.51	18
University of London	67(2.167)	England	1087	16.22	20
University of Pittsburgh	63(2.038)	USA	1213	19.25	18
Universite Paris Cite	62(2.005)	France	763	12.31	14
Maastricht University	59(1.908)	Netherlands	940	15.93	19
Cleveland Clinic Foundation	55(1.779)	USA	994	18.07	20

Table S2. The top 15 most published and cited productive journals in the research direction related to urinary incontinence.

Journals	Publications (%)	Country	IF (2022)	JCR (2022)	Total citations	Average Citations Per Item	H-Index
Neurourology and Urodynamics	902(29.172)	USA	2.0	Q3	11429	12.67	44
Journal of Urology	305(9.864)	USA	6.6	Q1	8755	28.7	43
Urology	278(8.991)	USA	2.1	Q3	3956	14.23	31
Lower Urinary Tract Symptoms	141(4.56)	Japan	1.3	Q4	733	5.2	14
World Journal of Urology	120(3.881)	USA	3.4	Q2	1623	13.53	22
BJU International	119(3.849)	England	4.5	Q1	3056	25.68	31
International Neurourology Journal	103(3.331)	South Korea	2.3	Q3	749	7.27	14
International Braz J Urol	101(3.266)	Brazil	3.7	Q1	672	6.65	13
International Journal of Urology	92(2.975)	Japan	2.6	Q3	1070	11.63	17
Current Urology Reports	84(2.717)	USA	2.6	Q3	932	11.1	17
Urologia Internationalis	78(2.523)	Switzerland	1.6	Q4	508	6.51	12
International Urology and Nephrology	72(2.329)	Netherlands	2.0	Q3	684	9.5	14
BMC Urology	70(2.264)	England	2.0	Q3	859	12.27	18
Current Bladder Dysfunction Reports	64(2.07)	USA	NA	NA	40	0.63	2
European Urology	48(1.552)	Netherlands	23.4	Q1	3808	79.33	36

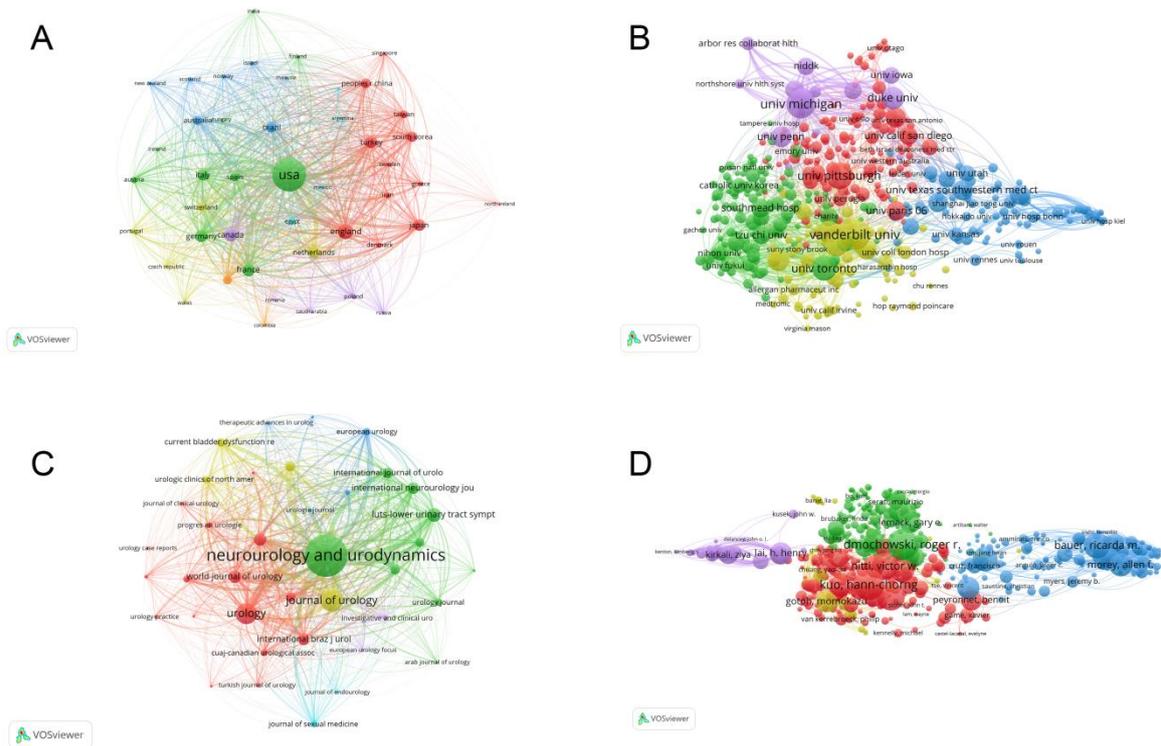

Figure S2. Bibliographic coupling analysis of global research about urinary incontinence. (A-D) Network visualization mapping for the identified countries/regions, affiliations, journals and authors. The size of the nodes and lines between two nodes indicate a proportional relationship to the similarity of the countries/regions, affiliations, journals and authors.
